REQUEST FOR PROPOSALS (RFP) NO. 270

Transportation Project Analysis Toolset Development

The Chicago Metropolitan Agency for Planning (CMAP) invites consultants to submit proposals for its Transportation Project Analysis Toolset Development RFP, as described in this scope of work. Please read each section carefully for information regarding the proposal and submittal instructions.

SECTION 1: ABOUT CMAP

About CMAP:

The Chicago Metropolitan Agency for Planning is Northeastern Illinois' metropolitan planning organization. The agency and its partners have developed ON TO 2050, a comprehensive plan that builds upon its predecessor GO TO 2040, to help the seven counties and 284 communities of northeastern Illinois implement strategies that address community, prosperity, the environment, governance, transportation, and mobility. CMAP has adopted core values, which are: lead with excellence, pursue equity, passion for public service, drive innovation and foster collaboration. These values guide all of the decisions taken by the agency and the CMAP team. See www.cmap.illinois.gov for more information.

General Information:

As a result of responses to this RFP, CMAP plans to evaluate the submissions and select a Consultant in accordance with the Evaluation Criteria set forth in 'Section 7: Evaluation Criteria' of this RFP.

Subject to "Reservation of Rights" below, it is anticipated that a contract will be awarded for the work set forth in 'Section 4: Scope of Services' of this RFP. The contract awarded will be for a period of 12 months with a 6 month option for renewal. CMAP expects to spend between \$250,000 and \$300,000 for this project. Firms should produce a project plan commensurate with this cost range.

SECTION 2: INTRODUCTION

In October 2018 the CMAP Board and the MPO Policy Committee approved the [ON TO 2050](#) long range comprehensive plan for Northeastern Illinois. As the Metropolitan Planning Organization (MPO) for the region, the Chicago Metropolitan Agency for Planning (CMAP) is required by federal law to quadrennially develop a list of major transportation projects to be implemented in the region between now and the horizon year of the long-range transportation plan (currently 2050). These projects are capital investments in the region's expressways, arterials, and transit system with impacts and benefits that are large enough to warrant additional discussion through the regional planning process. This group of Regionally Significant Projects (RSPs) must also be fiscally constrained, meaning that sufficient future revenues must be reasonably available to implement them.

For ON TO 2050, RSPs were defined as:

- Project costs of at least \$100 million and (a) changes capacity on the National Highway System (NHS) or is a new expressway or principal arterial, or (b) changes capacity on transit services

- with some separate rights-of-way or shared right-of-way where transit has priority over other traffic; or
- Project costs of at least \$250 million, regardless of the facility type or work type

RSP'S support the ON TO 2050 principles of inclusive growth, prioritized investment, and resilience, particularly emphasizing the need to use the region's limited resources to invest in existing infrastructure to modernize and improve condition to achieve a state of good repair.

As the cost of all proposed RSP' exceed the expected revenue that will be available to fund them, a project evaluation process is used to prioritize which transportation improvement projects will be completed. Projects are prioritized into two categories: "constrained" and "unconstrained." Only constrained projects are eligible to receive federal transportation funds and obtain certain federal approvals. These constrained projects can help the region meet today's needs, adapt to changing mobility patterns for goods and people, and support economic success overall. Projects that are categorized as "unconstrained" require further action such as additional study and/or cannot be completed within the limits of the region's forecasted revenues

CMAPI is finalizing an update to the ON TO 2050 plan, anticipated to be adopted in October 2022 – as part of this update a set of RSP's was again evaluated to determine the impact they would have on the residents of the region and the regional transportation system. One objective of the planning process is to identify projects which help the region meet its transportation, economic, land use, environmental, and quality of life goals. This evaluation is published in the [RSP Benefits report](#).

As CMAPI begins to think about the development of a new long range comprehensive plan the agency would like to improve the methods used to evaluate the RSPs. CMAPI desires to develop a best-in-class set of tools capable of evaluating the overall benefits and impacts of major transportation capital investments within the context of the Inclusive Growth, Resilience, and Prioritized Investment principles that help guide ON TO 2050. These tools will help operationalize the ON TO 2050 recommendations while initiating important shifts toward equity in benefit-cost analysis and data-driven, performance-based approaches to making transportation capital investments.

SECTION 3: PROJECT BACKGROUND

As documented in the RSP Benefits report, the current RSP evaluation process produces a number of performance metric values for each project. The intention of the work in this RFP is to improve the evaluation framework CMAPI currently uses to assess RSPs – this work may involve the definition and development of project performance measures as well as the development and refinement of analysis procedures used to calculate the metrics. The overall goal of this project is to develop a set of tools that can holistically evaluate the benefits of major transportation investments. It is hoped that these results can be leveraged by our regional partners to improve decision making while providing much-needed analysis to bolster their applications for competitive funding programs. These tools will ensure our region is making the most effective investments, deploying limited tax dollars in ways that meet critical transportation needs, and providing greater transparency and accountability to the public.

The following table provides a summary of potential project impact categories that should be considered, as well as potential measures within each category. This information is provided to offer insight into CMAPI's initial thoughts on tool development, but this list should not be considered exhaustive or complete. Similarly,

consultants should not feel constrained by the impact categories listed in the table as they approach the work.

Category	Potential Measures
Safety Impact	<ul style="list-style-type: none"> • Change in fatalities and serious injuries <ul style="list-style-type: none"> ◦ Track type of crash and rates per VMT and population • Share of IDOT Critical and High designated safety tier locations that are improved • Total of number of protected bike lanes and state of the pedestrian safety environment • Quantify the frequency of drivers who speed or drive aggressively • Safety improvements measured using trajectories
Equity Impact	<ul style="list-style-type: none"> • Project use by residents of Economically Disconnected Areas (EDAs) • Number of low barrier to entry jobs accessible for residents of EDAs <ul style="list-style-type: none"> ◦ Measure ratio of number low barrier of jobs reachable by auto vs transit • Fine particulate matter emissions in EDAs • Per capita investment per EDA/non-EDA population for users of project. Track costs and benefits • Traffic crash rates for EDA population per capita and trip. • Per capita - Per adult; Per commuter or peak-period travel; Per household • Travel unit - Per vehicle-mile Per passenger-mile; Per trip; Per commute or peak-period trip; • Per dollar - Per dollar user fees; Per dollar of subsidy; Cost recovery • Increased and improved access to healthcare, education, shopping and employment
Economic impact	<ul style="list-style-type: none"> • Benefit/cost analysis <ul style="list-style-type: none"> ◦ travel time savings, vehicle operating cost savings, traffic crash cost savings, vehicle emissions savings, improvements in travel reliability • Employment and Business Activity (i.e., increased employment / annual average job growth; change in personal income; business activity / change in gross regional product resulting from expenditures on transit services) • Consumer Expenditures and Savings (i.e., consumer expenditures shifted from vehicles and fuel to more locally produced goods or savings). • Change in Productivity Gains (i.e., improved access to education, jobs and greater diversity of labor market skills, and reduced costs to businesses) • Land use Development/efficiencies (i.e., increased accessibility and clustering, providing agglomeration efficiencies, benefit to areas with industrial vacancy, transit-oriented development, transit facilities and services support strategic development objectives in the community etc.) • Change in national market share

	<ul style="list-style-type: none"> • Benefit to timing of project based on pavement management criteria
Environment/Resilience Impact	<ul style="list-style-type: none"> • Change in greenhouse gas emissions • Development pressure in conservation areas • Direct impact on conservation areas • Development pressure in areas at risk of groundwater desaturation • Change in impervious area • Change in noise • Benefits of increased physical activity • Reductions in flooding • Alternative route/mode options when main choice is blocked • Transportation infrastructure vulnerability • Some measure of network connectivity/criticality – importance of corridor based on connectivity it provides (paths or O-D pairs that use it), improvement in connectivity for impacted EDAs • Detour ratio (travel time) to measure adaptive capacity of network • Reduction in animal/vehicle crashes • Urban heat islands
Transportation operations Impact	<ul style="list-style-type: none"> • Change in congested vehicle hours of travel (VHT) • Transit project ridership • Change in regional transit trips • Change in job accessibility • Change in regional commute times • Change in commute times for project users • Change in modal options • Improvement in first/last mile access • Reduced crowding on transit vehicles (buses and rail)
Existing Needs	<ul style="list-style-type: none"> • Asset condition – bridge, pavement, transit • ADA accessibility • Current reliability • Capacity constraint • Safety • Mobility

The current RSP evaluation process relies heavily on data provided by CMAP’s trip-based travel demand model, as well as GIS-based analyses of data. The consultant can assume that CMAP’s travel demand model (either trip-based or activity-based) will play a large role in the Transportation Project Analysis Toolset (TPAT); however, the evaluation process need not be constrained to only using the travel model. The goal of this project is to identify the best available analysis tools and performance measures to assess transportation project impacts. The current trip-based travel demand model documentation can be viewed [here](#). CMAP’s activity-based model is undergoing a major update which is due to be completed in Spring 2023; documentation for the current version of the model can be viewed [here](#).

SECTION 4: SCOPE OF SERVICES

This scope of work seeks to develop a set of tools that can holistically evaluate the benefits of major transportation investments. The initial use of this TPAT will be focused on the evaluation of RSPs for CMAP's next long range comprehensive plan, however use of the tools could expand into other areas of project evaluation.

Task #1: Refined Project Work Program and Management Plan

The consultant will hold a kickoff meeting to discuss approach, prominent needs or issues, and to formulate a method for bi-weekly progress reports. Proposals should include a description of roles, responsibilities, and time commitments (and may suggest roles for CMAP staff), as well as a draft schedule of target dates for all task milestones and deliverables to be finalized at the start of the project.

Consultant services / deliverables:

- Detailed work plan with schedule.

Task #2: Research and Summarize Best Practices in Measuring the Impacts of Transportation Projects

The consultant will conduct a research scan of State DOTs, MPOs, or other agencies involved in transportation project evaluation to identify best practices in analysis tools and techniques, and performance metrics. This research phase may involve interviews with staff from other agencies to gain their insight. The consultant is free to propose innovative methods and measures in project evaluation. The consultant will provide a summary of research findings including initial recommendations on performance metrics.

Consultant services / deliverables:

- A report or memorandum detailing best practices in measuring the impacts of proposed transportation project improvements. The document must include a summary of agencies investigated, discussion of promising performance metrics that could be included in CMAP's process, discussion of analysis tools and procedures used (including shortcomings), key datasets required for the analysis, and initial recommendations on performance measures to include. In instances where the data required to calculate performance metrics is not readily available to CMAP today, the document should describe the data collection or acquisition process needed to obtain the data and maintain it moving forward.

Task #3: Assist CMAP in Facilitating Meetings with Regional Partners to get Input on Appropriate Performance Metrics

Following the research task, CMAP and the consultant will convene a set of advisory groups comprised of regional partners with expertise and experience in each of the impact categories. The role of the advisory groups will be to assist CMAP in developing meaningful performance metrics for the categories of impacts to be included in the RSP evaluation process, to help identify data that can be used to support project evaluation, to identify data deficiencies that may hinder project evaluations, to propose data collection activities that can be sustained to improve the quality of the TPAT, and to provide input/feedback on the overall development of the TPAT. CMAP envisions that the advisory groups will meet collectively for an introductory meeting and one to summarize the results of discussions. The groups will hold individual meetings to focus the discussion on their respective topical areas. The proposal should include a preliminary schedule of advisory group meetings.

Consultant services / deliverables:

- Meeting content, handouts and summary notes.
- Presentations to up to four CMAP committees of performance metrics

Task #4: Develop Transportation Project Analysis Toolset Procedures

In coordination with CMAP staff, the consultant will develop a set of procedures that will automate the data processing and calculation of performance metrics for the RSP evaluations. This may include processes to develop outputs directly from CMAP’s travel demand models or the post-processing of outputs from travel models or other analyses. These procedures should be:

- Written in an open-source language.
- Flexible to allow for easily changing analysis parameters.
- Able to generate a dashboard for displaying project evaluation results and for comparing the results of two projects.

Any recommendation for purchasing software should include a discussion of the costs and benefits of each available commercial software application.

Consultant services / deliverables:

- All processing procedures and scripts.
- A report or memorandum serving as a user guide to the procedures. This must include instructions on running the procedures, identification of prerequisites to running the processes, documentation on the structure/format of input and output data files, and discussion of the specific parameters used in the procedures.
- A training event for CMAP technical staff demonstrating procedures, how to update the measures, and interpret the results.

Task #5: Recommendation on a Project Comparison Framework

A wide range of performance metrics is included in the current RSP evaluation process, falling into three categories: addressing today’s needs, improving 2050 travel, and implementing ON TO 2050 planning priorities. Often individual projects may exhibit a benefit in one evaluation category or metric and a disbenefit in another. While the current RSP evaluation process provides a large number of data points for each of the projects, it does not provide an organized framework for easily comparing the impacts across projects. This is an important shortcoming in the current evaluations, as they are intended to help prioritize the selection of projects. The consultant will propose a framework that CMAP can use to compare projects and prioritize them.

Consultant services / deliverables:

- A report or memorandum proposing a project comparison framework (or alternative frameworks) that can be used to more easily quantify impacts across projects.

SECTION 5: SUBMITTAL REQUIREMENTS

Submissions should be submitted in the order presented:

1. Identify the Consultant team that will be involved in this project. Include a narrative describing the team’s combined qualifications and strengths. Clearly identify the project manager, specify the role of subcontractors and describe the team’s structure for leadership, support and accountability. Each primary individuals with time on the project should be identified, their

qualifications outlined and their role defined whether they work for the lead firm or a subcontractor.

2. Provide a narrative proposal of the approach and techniques the applicant will use to complete the entire scope of services. The proposal must include a clear and concise work plan for achieving the identified tasks and preparing the required deliverables. Refer to the discussion of individual tasks in Section 4 of this RFP to identify specific components of each task that CMAP expects to be delineated in the proposal. The discussion of each task must also be accompanied by an estimate of the cost and Consultant staffing requirements and timeline for completion for that specific task. Proposals should include a description of roles, responsibilities, and time commitments (and may suggest roles for CMAP staff), as well as a draft schedule of target dates for all task milestones and deliverables to be finalized at the start of the project. The proposal should include a preliminary schedule of advisory group meetings.
3. Provide at least three examples of similar work that the Consultant has completed. Specify the client, the date completed and the approximate cost of each example. Provide references for each project including the individual contact name and phone number of project managers who are willing and able to comment on the proposed project manager's ability to produce a quality professional product on time and within budget.
4. Submit the "Price Proposal Form," Attachment 1 (Excel file), with all proposed pricing for this project. Specify number of hours, hourly rates for relevant staff with the individuals identified, and any other expenses in the estimation of cost.
5. Sign and submit the "Certificate Regarding Workers' Compensation Insurance," Attachment 2, the "Information to be provided by Bidder," Attachment 3, and "FTA Certification Regarding Lobbying" Attachment 4 and 4. A copy of the firms' SAMS.gov CAGE Code Report.
6. A copy of the firms' SAMS.gov CAGE Code Report.

SECTION 7: EVALUATION CRITERIA

Evaluation Criteria

All responses to this request for proposals will be analyzed for completeness and cost effectiveness. The following criteria will be used in evaluating submissions:

1. The responsiveness of the proposal to the scope of work, as demonstrated through a substantive discussion of the issues and a clearly defined methodology, process, and timeline.
2. The quality of the proposal's independent articulation of the scope of work and understanding of project objectives.
3. The demonstrated record of experience of the firm and personnel assigned to the project in providing the professional services identified in this scope of work. Prior performance of previous CMAP contracts will be considered. Consultants who are or have been seriously deficient in current or recent contract performance in the absence of evidence to the contrary or circumstances properly beyond the control of the Consultant shall be presumed to be unable to meet these requirements. Past unsatisfactory performance will ordinarily be sufficient to justify a finding of non-responsibility
4. The quality and relevance of the examples of similar work.
5. Cost to CMAP, including consideration of all project costs and per-hour costs.

All timely responses received to this scope of work will be reviewed, and interviews may be conducted with selected submitters CMAP determines can best meet the above requirements. Cost will be evaluated against other factors based upon the professional judgment of those involved in the evaluation. An internal CMAP committee will make the consultant selection decision.

As applicable, hourly rates for personnel the submitter proposes to use will be requested and negotiations will be held on both the scope and the cost to select the consultant CMAP believes can best satisfy its requirements at rates it perceives are reasonable for the services provided.

CHANGE REQUESTS MADE TO PERSONNEL, TITLES, PERSONNEL HOURS, HOURLY RATES OR SUBCONTRACTORS, INCLUDING SUBCONTRACTOR PERSONNEL, PERSONNEL HOURS OR HOURLY RATES MUST RECEIVE PRIOR WRITTEN APPROVAL FROM THE CMAP PROCUREMENT OFFICER. CHANGES MADE WITHOUT PRIOR WRITTEN APPROVAL WILL NOT BE REIMBURSED.

SECTION 8: Contractual Agreement and Rights

Contractual Agreement

The contract CMAP anticipates awarding as a result of this RFP and subsequent rate submissions and negotiations, if any, will indicate the service requirements, time periods involved and applicable hourly rates. In addition, it will include the General Provisions, Section 5 hereto, and Special Provisions, Section 6 hereto, which will apply to the contract.

Reservation of Rights

CMAP reserves the following rights if using them will be more advantageous to CMAP:

- 1) Withdraw this RFP at any time without prior notice
- 2) Accept or reject any and all submissions, or any item or part thereof
- 3) Postpone qualifications due date
- 4) Not award a contract to any submitter responding to this RFP
- 5) Award a contract without negotiations or discussions

SECTION 9: General Provisions

The following provisions apply to the solicitation to which this section is attached and to any contract that results from the solicitation. Signatories of this Agreement certify that these conditions and procedures and terms and the conditions and procedures specific to this project will be adhered to unless amended in writing.

- 1) Complete Agreement.
 - a) This Agreement (which also may be herein referred to as "Contract"), including all exhibits and other documents incorporated or referenced in the agreement, constitutes the complete and exclusive statement of the terms and conditions of the agreement between CMAP and Contractor and it supersedes all prior representations, understandings and communications. The invalidity in whole or in part of any term or condition of this Agreement shall not affect the validity of other terms or conditions.
 - b) Order of Precedence: Conflicting provisions hereof, if any, shall prevail in the following descending order of precedence: (1) the provisions of the executed contract, including its exhibits; (2) the provisions of the RFP on which the contract is based including any and all Addendums; (3) the proposal submitted to CMAP by the Contractor in response to said RFP; and (4) any other documents cited or incorporated herein by reference.
 - c) CMAP's failure to insist in any one or more instances upon the performance of any terms or conditions of this Agreement shall not be construed as a waiver or relinquishment of CMAP's right to such performance by the Contractor or to future performance of such terms or conditions and Contractor's obligation in respect thereto shall continue in full force and effect. Contractor shall be responsible for having taken steps reasonably necessary to ascertain the nature and location of the work, and the general and local conditions that can affect the work or the cost thereof. Any

failure by the Contractor to do so will not relieve it from responsibility for successfully performing the work without additional expense to CMAP.

- d) CMAP assumes no responsibility for any understanding or representations made by any of its officers, employees or agents prior to the execution of this Agreement, unless such understanding or representations by CMAP are expressly stated in this Agreement.
 - e) Changes: CMAP may from time to time order work suspension or make any change in the general scope of this Agreement including, but not limited to changes, as applicable, in the drawings, specifications, delivery schedules or any other particulars of the description, statement of work or provisions of this Agreement. If any such change causes an increase or decrease in the cost or time required for performance of any part of the work under this Agreement, the Contractor shall promptly notify CMAP thereof and assert its claim for adjustment within thirty (30) days after the change is ordered. A written amendment will be prepared for agreement between CMAP and the Contractor for changes in scope, time and/or costs. No amendments are effective until there is a written agreement that has been signed by both parties. No claim by the Contractor for equitable adjustment hereunder shall be allowed if asserted after final payment under this Agreement.
 - f) Changes to any portion of this Agreement shall not be binding upon CMAP except when specifically confirmed in writing by an authorized representative of CMAP.
 - g) Only the Executive Director of CMAP, or designee, shall have the authority to act for and exercise any of the rights of CMAP as set forth in this Agreement, subsequent to and in accordance with the authority granted by CMAP's Board of Directors
 - h) For its convenience, CMAP reserves the right to extend the Term of this agreement. Any changes to the Term of this Agreement shall not be binding until specifically confirmed in writing by authorized representatives of both parties.
- 2) Independent Contractor. Contractor's relationship to CMAP in the performance of this Agreement is that of an independent contractor. Contractor's personnel performing work under this Agreement shall at all times be under Contractor's exclusive direction and control and shall be employees of Contractor and not employees of CMAP. Contractor shall pay all wages, salaries and other amounts due its employees in connection with this Agreement and shall be responsible for all reports and obligations respecting them, including, but not limited to, social security, income tax withholding, and unemployment compensation, workers ' compensation insurance and similar matters.
- 3) Assignment.
- a. This agreement shall be binding upon, and inure to the benefit of, the respective successors, assigns, heirs, and personal representatives of CMAP and Contractor. Any successor to the Contractor's rights under this Agreement must be approved by CMAP unless the transaction is specifically authorized under federal law. Any successor will be required to accede to all the terms, conditions and requirements of the Agreement as a condition precedent to such succession.
 - b. The Contractor shall not assign any interest in this Agreement and shall not transfer any interest in the same (whether by assignment or novation), without the prior written consent of CMAP hereto, provided, however, that claims for money due or to become due to the Contractor from CMAP under this Agreement may be assigned to a bank, trust company or other financial institution without such approval. Notice of any such assignment or transfer shall be furnished to CMAP.

4) Availability of Appropriation (30 ILCS 500/20-60). This Agreement is contingent upon and subject to the availability of funds. CMAP, at its sole option, may terminate or suspend this Agreement, in whole or in part, without penalty or further payment being required, if the Illinois General Assembly, the state funding source, or the federal funding source fails to make an appropriation sufficient to pay such obligation, or if funds needed are insufficient for any reason. The contractor will be notified in writing of the failure of appropriation or of a reduction or decrease.

5) Allowable Charges. No expenditures or charges shall be included in the cost of the Project and no part of the money paid to the Contractor shall be used by the Contractor for expenditures or charges that are: (i) contrary to provisions of this Agreement or the latest budget approved by a duly-authorized official of CMAP; (ii) not directly for carrying out the Project; (iii) of a regular and continuing nature, except that of salaries and wages of appointed principal executives of the Contractor who have not been appointed specifically for the purposes of directing the Project, who devote official time directly to the Project under specific assignments, and respecting whom adequate records of the time devoted to and services performed for the Project are maintained by the Contractor may be considered as proper costs of the Project to the extent of the time thus devoted and recorded if they are otherwise in accordance with the provisions hereof; or (iv) incurred without the consent of CMAP after written notice of the suspension or termination of any or all of CMAP's obligations under this Agreement.

6) Method of Payment.

Project expenditures are paid directly from federal and/or state funds. Because CMAP is responsible for obtaining federal reimbursement for project expenditures, it is necessary that CMAP monitor all procedures and documents which will be used to claim and support project-related expenditures. The following procedures should be observed to secure payment:

- b) Based on services performed, CONTRACTOR may submit invoices as frequently as once a month, but is required to submit invoices no later than fifteen (15) days after the end of each quarter. Failure to submit such payment request timely will render the amounts billed an unallowable cost for which the CONTRACTOR cannot be reimbursed. CMAP is committed to reducing paper use and has established an electronic invoicing system. All invoices are to be submitted through email to:

accounting@cmap.illinois.gov

All invoices shall be signed by an authorized representative of the CONTRACTOR

- c) Subject to the conditions of this Agreement, CMAP will honor invoices in amounts deemed by it to be proper to insure the carrying out of the approved scope of services and shall be obligated to pay the Contractor such amounts as may be approved by CMAP. Invoices shall detail expenses and amount of time spent on CMAP assignments. If an invoice is not acceptable, CMAP shall promptly provide the Contractor a written statement regarding its ineligibility or deficiencies to be eliminated prior to its acceptance and processing. All invoices for services performed and expenses incurred by CONTRACTOR for the services of this Agreement must be presented to CMAP no later than fifteen (15) days after the close of the fiscal year for multi-year contracts, or no later than fifteen (15) days after the end of this Agreement for shorter term contracts. Notwithstanding any other provision of this Agreement, CMAP shall not be obligated to make payment to CONTRACTOR on invoices presented after said date. No payments will be made for services performed prior to the effective date of this Agreement. All payments will be transferred electronically to Contractor's business bank account. The successful Contractor will be requested to provide transfer numbers for the business bank account when the contract is finalized, in addition to a copy of its IRS W-9 (Request for Taxpayer Identification Number and Certification).

- d) Each invoice and report submitted must contain: the contract number, a unique vendor invoice number, a description of the services performed, the hourly rates and number of hours worked for each contractor, an itemization of travel and other costs which are chargeable to the contract and the following certification by an official authorized to legally bind the CONTRACTOR:

By signing this payment request, I certify that to the best of my knowledge and belief that the payment request is true, complete, and accurate, and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of this contract. I am aware that any false, fictitious, or fraudulent information, or the omission of any material fact, may subject me to criminal, civil or administrative penalties for fraud, false statements, false claims or otherwise. (U.S. Code Title 18, Section 1001 and Title 31, Sections 3729-3730 and 3801-3812).

- e) The Contractor is required to pay all subcontractors within thirty days of receiving payment for that portion of the work from CMAP. Failure to pay subcontractors within thirty days may jeopardize future CMAP contract awards.
- 7) Conflict of Interest. In order to avoid any potential conflict of interest, the Contractor agrees during the term of this Agreement not to undertake any activities which could conflict directly or indirectly with the interest of CMAP. Contractor shall immediately advise CMAP of any such conflict of interest. CMAP shall make the ultimate determination as to whether a conflict of interest exists.
- 8) Audits. The records and supportive documentation for all completed projects are subject to an on-site audit by CMAP. CMAP reserves the right to inspect and review, during normal working hours, the work papers of the CONTRACTOR in support of their invoices.
- 9) Access to Records.
- a. The Contractor and its Subcontractor, under this Agreement shall preserve and produce upon request of the authorized representatives of CMAP all data, records, reports, correspondence and memoranda of every description of the CONTRACTOR and its Subcontractors, if any, under this Agreement relating to carrying out this Agreement for the purposes of an audit, inspection or work review for a period of three (3) years after completion of the project, except that:
- i. If any litigation, claim or audit is started before the expiration of three-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved.
- ii. Records for nonexpendable property acquired with federal funds shall be retained for three (3) years after its final disposition.

The CONTRACTOR shall include a provision in all of its subcontracts, if any, such provisions.

- 10) Subcontracts.
- a. Any subcontractors or outside associates or contractors required by the Contractor in connection with the services covered by this Agreement will be limited to such individuals or firms as were specifically identified and agreed to during negotiations. Any substitutions in or additions to such subcontractors, associates or contractors will be subject to the prior approval of CMAP.

- b. All subcontracts for work under this Agreement shall contain those applicable provisions which are required in this Agreement.
 - c. The Contractor may not subcontract services agreed to under this Agreement without prior written approval of CMAP.
- 11) Equipment Inventory. An inventory of non-expendable personal property having a useful life of more than two years and an acquisition cost of \$500 or more is subject to periodic inspection by CMAP.
